PROFESSIONAL SUMMARY

I am a Telecommunications Engineer with over 24 year's experience building enterprise software in demanding technology environments. Over the years I have been involved in every stage of software delivery, from analysis and design to implementation and testing, always looking for ways that technology can make processes simpler and more efficient. Recently, I have focused on Generative AI and automation, applying them to the real estate and investment sector. I now lead a technology ecosystem that brings together data, automation, and customer experience in one integrated model.

My approach combines technical know-how with strategic thinking and practical execution, always with people at the very center.

CORE COMPETENCIES

- **Agentic Software Development:** Codex, Claude Code, Cursor, MCP-enabled workflows, multi-agent orchestration, code review, and human-in-the-loop delivery.
- **Spec-Driven Development (SDD):** product specs, phased implementation plans, acceptance criteria, test gates, and documentation-first delivery.
- **AI Product Engineering:** LLM integration (OpenAI, Ollama, LangChain), prompt engineering, RAG, AI agents, workflow automation, and AI governance.
- **Landing Pages, SaaS & PWA Design:** premium landing pages, responsive web apps, SaaS/PWA product interfaces, Next.js 15, React, TypeScript, Node.js 24, pnpm 10, Fastify APIs, Vercel.
- **Enterprise & Data Systems:** Oracle Fusion Middleware 12c, Oracle Forms, Oracle Reports, PL/SQL, Oracle Developer, Oracle Workflow, Oracle Designer.
- **Automation & Quality:** N8N, Make, Flowise, Firebase, Python scripting, API orchestration, Vitest, React Testing Library, Playwright, QA and accessibility checks.

PROFESSIONAL EXPERIENCE

Founder - Real Estate Technology Initiative - Anclora

October 2024 - Present | Palma de Mallorca, Balearic Islands, Spain

Design and development of a technology ecosystem serving the high-value real estate sector, centered on the practical application of Generative Artificial Intelligence and digital automation.

- Design of intelligent tools and workflows to enhance productivity, lead generation, and strategic decision-making.
- Implementation of automated investor acquisition systems for international real estate projects.
- Definition of hybrid architectures combining data analytics, intelligent automation, and customer experience.
- End-to-end technical leadership: architecture, technology selection, development, and component integration.

Senior Software Consultant - CGI

April 2014 - July 2026 | Palma de Mallorca, Balearic Islands, Spain

Maintenance and evolution of corporate applications for inventory, training-offer management, and accounting at the University of the Balearic Islands (UIB), built on Oracle Fusion Middleware 12c, Oracle Forms, Reports, and PL/SQL.

- Integration of institutional accounting with FAcE, the Spanish Public Administration's general entry point for electronic invoices.
- System adaptation to the SII VAT-ledger framework of the Spanish Tax Agency.
- Technical leadership in modernization and process optimization through automation and Generative AI techniques.

Senior Analyst - Indra

February 2012 - March 2014 | Madrid, Spain

Development and maintenance of the Procurement and Billing Management system for the CNAT on Oracle technology.

- Functional and technical analysis of system requirements.
- Design and development of critical modules in PL/SQL.

- Validation testing and post-implementation support.

Senior Analyst - Indra

November 2000 - February 2012 | Madrid, Spain

Development and maintenance of Administrative Contracting, Case Files, Patrimonial Management, and Judicial Withholdings applications for FEGA.

- End-to-end design and implementation of public-administration management systems.
- Continuous evolutionary maintenance and performance optimization of production systems.

Programming Analyst - Eurosoft IT

January 1999 - November 2000 | Madrid, Spain

Design and development of applications for radio-electric fees management and customer-database migration for Citroën Spain.

- Technical stack: PL/SQL, Oracle Designer, Oracle Developer.

Programmer - Fórum Informático y Tecnológico

September 1997 - January 1999 | Madrid, Spain

Development of a corporate contract management application for Fujitsu ICL.

- Technical stack: Oracle Developer, PL/SQL.

IT Programmer - Grupo Gesfor

January 1997 - September 1997 | Madrid, Spain

Contribution to a port management and maritime operations billing system for Navicon.

- Technical stack: Oracle Developer, PL/SQL.

EDUCATION

Technical Engineering in Telecommunications (Degree)- University of Alcalá

September 1992 - September 1996 | Alcalá de Henares, Community of Madrid, Spain

AI CERTIFICATIONS & COMPLEMENTARY TRAINING

- **AI Pro for SMEs: Cognitive Automation and Autonomous Agents** - MOBA Skill Training / EOI Generation Digital Pymes. 150 hours, May-June 2026.
- **AI Heroes: Artificial Intelligence and Automations** - Learning Heroes. Program started in March 2025, covering prompt engineering, AI agents, generative audiovisual AI, vibe coding, and AI project monetization.
- **Introductory Course in AI Development** - BIG School. 6 hours, October 2025.

KEY SKILLS

- **Technical:** Next.js 15, React, TypeScript, Node.js 24, pnpm 10, Fastify, Python, GitHub, Vercel, Neon/Supabase, PWA, OpenAI, Ollama, LangChain, RAG, MCP, Codex, Claude Code, Cursor, N8N, Make, Flowise, Firebase, Oracle Fusion Middleware 12c, PL/SQL.
- **Strategic:** SDD, agentic programming, AI-assisted delivery, landing page and SaaS product design, business and technology alignment, AI governance, privacy-aware design, technical SEO/AEO/GEO.
- **Industry:** AI productivity tools, high-value real estate, digital product ecosystems, automated investor acquisition, electronic invoicing (FACe, SII), public-administration systems.
- **Languages:** Spanish (native), English (professional working proficiency).

HOBBIES & INTERESTS

Outside of my professional work, I am building an editorial brand for digital publishing — writing has always been a passion of mine. I also love to travel, meet new people, and explore different cultures, which keeps me curious and open to new possibilities.
